We were extremely overwhelmed on hearing the announcement that our daughter Ginni Kundal has been selected for internship in ITC Maratha. My wife was almost in tears and I could see that sparkle in Ginni's eyes, which always we had longed for these many years. Since day-1 in IIHM, Ginni has always been driven towards her curriculum. She was never so excited to attend the school as she was in IIHM. We have been observing an optimistic growth in her attitude and personality as a whole. Surprisingly, during her recent health illness, she willingly attended all the lectures, despite the doctor advising her to take bed rest. It was our sheer good luck that we found IIHM! A million salutes to the visionary management to have founded IIHM with a noble mission!!
